WELLINGTON

Dear Dr Stoop

At the recent NASDAP Executive meeting, I presented as correspondence inwards, your letter dated 4 February 2009 about ERO amending its review methodology to include a four to five year cycle for schools that have a stable reporting history.

All of the Executive present felt that this was a very positive step and wanted me to write to you, commending this decision. We look forward to hearing the results of the consultation phase once they are available.

Kind regards

Annette M Taylor (Ms)
